THE OLD TUB MILL DAM

A lot of water has run over this dam in the last century that it has been in existence. It powered the mill in the tried and true manner that the early Yankees used to drive all of the colonial machinery. Every time you see water flowing in New England, it is a safe bet that somewhere along that stream, an enterprising fellow made a dam and built a mill. It is just as well that in that day the bureaucracy had not developed as today, or no mill would ever have been built. It was powered by an undercut wheel the shaft of which is still visible in the central spot of our cover photo. The wheel is steel, so it survived the demise of the mill and sat unnoticed until Frank Sylvia restored the ruin of the stonework back a decade or so ago. Once, behind the dam there was a sizable pond enclosed by an earthen dam. That is no longer intact enough to enclose a pond, but there is enough left to hold back enough water to make this lively flow which is encouraged by the consistent, terrible weather we have enjoyed for the last 3 weeks or so. This site was once a major Mattapoisett industry. Now, it's hardly noticed by the hundreds who pass daily. It is worth a glance.

Water Tests Clean

MATTAPOISETT SELECTMEN'S MEETING
NOVEMBER 19, 1991

Water Superintendent William Nicholson and Water Commissioner Clifford Tripp appeared before the Board of Selectmen to bring them up to date on the water situation centered at Barstow and Church Streets. Mr. Nicholson said, "I am happy to report that from last Wednesday (the 13th) to now we have had clean results in our tests, for five days in a row." He continued to say that the Water Department is reporting to the DEP daily and that flushing will continue on that line with the flow gradually being reduced. He said, "Now that the line is clean, we don't want to shut it off at once and risk a recurrence." Mr. Nicholson said that samples will be taken over the next 10 days after which he would revert to the normal monthly test which is routine.

Selectmen Chairman John DeCosta, speaking for the board, expressed thanks for all of the good work of the Water Department which has been successful.

SENATOR WALL DISCUSSES ISSUES

State Senator Erving Wall met with selectmen to discuss issues now before the legislature in Boston. He said, "The most important issue at present is Workmen's Compensation". He said that last year it was a 2½ billion dollar business and that now the request is for a 45% increase. He said that employers are saying "we can't afford it at the present level of cost."

On another current issue of vital concern to cities and towns, Senator Wall said that he does not think that a rumored 10% cut in local aid will happen. He said that the

state has 250 million in surplus cash.

Speaking of the reinstating of the death penalty, Mr. Wall said that he is of two minds on the issue. "I don't think anyone knows how much of a deterrent it is, but if it only saves 2 lives a year then it is worth having." He said that the other factor is to see that justice is dispensed equally. At present, he stated, it seems that the more money you have, the less chance of a conviction in the court system.

On the issue of health care the rapid increase of hospital care was discussed. Selectman Daniel Mahoney said that, in his view, part of the cause was underutilization of hospital space. Mr. Mahoney said that, if a hospital has only 30% of its beds occupied, then those 30% of the patients must absorb all of the cost. He asked if Mr. Wall had the figures on the utilization of the Brockton area hospitals. The Senator replied that he did not but promised to obtain such figures to see how Brockton hospitals are being used.

DESIGNER KITCHENS BY Angela

Mr. Mach said that these repairs are necessary now because the wharf has been laid open and is, therefore, in great danger from any future storms. He said that it has been determined that the use of the Mattapoisett Highway Department can save the town a lot of money. The plan is to back-hoe around the stone at the outer end for 50 feet, to dig out old loose fill, then to fill that section with concrete. This will form a solid barrier against the breakers. From that section on in toward the shore it is planned to fill with heavy gravel and then to use processed stone to crown the wharf surface. This will require: fill, 300 cubic yards at $6.00 for $1,800.00; processed stone, 10 yards at $5.00 for $500.00; concrete, 100 yards at $60.00 for $6,000; filter cloth, ? yards, approximately $2,000.00.

Mr. Mahoney asked if Mr. Mach would suggest $10,300 to do the immediate work to make the wharf secure for the winter season.

Mr. Mach replied that $30,000 would be the total for a permanent repair using the highway department to do the work. The only other expense would be the dredging of the wharf material that was washed over-

board by Hurricane Bob and replacement of the pilings that were lost. Mr. Mach said Highway Surveyor Wesley Bowman had been of invaluable help in the estimating. He said, "We couldn't have done it without him."

Mr. Mahoney noted that the town had $11,325 in the Waterways Fund. He then made a motion to make a total appropriation for the work of $30,000, the amount of $18,675 to come from the Waterfront Enterprise Fund which added to the $11,325 would total the $30,000. The selectmen voted unanimously to support the motion. Mr. Mach said the work would begin as soon as the materials could be obtained and Mr. Bowman could schedule the work.

FRUSTRATION EXPRESSED

Mr. William Macropoulos of Norton, MA met with selectmen to try to determine how he and other summer home owners could proceed to restore their homes or if they will be allowed to do so. He said that he had purchased a home at Howard Beach in the Brandt Island area. Hurricane Bob had lifted this home off its pillars and floated it to the back of the marsh behind the beach. He said that, although the structure is sound, the insurance company had called it a total loss. He said that although the home was insured for $100,000 the claim was settled for only half that because the company said that it was overinsured. He would like to put it back on its original foundation. He said that the problem is that the state provides the guidelines but has no knowledge of the situation. The town authorities have the knowledge of the situation but are not clear on what the state will allow. Mr. Macropoulos said that he would like the Board of Selectmen's opinion as the town's governing body.

Selectman Mahoney said that he would like to respond. He explained that there is a whole set of independent entities in town government. The Board of Health, the Building Inspector, the Conservation Commission are not under the selectmen's direction and "it is not appropriate for the selectmen to interfere. There is a whole statutory system through which to proceed via a series of hearings." Mr. Mahoney continued, "The premise of us as the town government is not correct. The selectmen would like to have all damaged property restored but the selectmen cannot proceed without adhering to all of the state's statutes."

Mr. Macropoulos said that he had heard and was troubled about a process of eminent domain at the beaches on land minimally damaged with the exception of the house moved. He stated, "There is quite a bit of hard feeling among these householders because they don't know how to proceed." Building Inspector Andrew Bobola explained that there are 25 marked areas designated as Barrier Beaches. Nine of these areas do have homes built upon them. Mr. Bobola said, "To be factual and honest the town (Mattapoisett) does not have the answers.

Federal authorities could take the land under eminent domain." Mr. Mahoney said, "There is a South Carolina case now before the Supreme Court that will determine how far the government can go in preventing rebuilding upon a beach and not pay compensation."

Mr. Macropoulos said, "When I bought my house, no one said that, unless in compliance with future regulations, you will be faced with being unable to rebuild your house if it is destroyed."

Mr. Mahoney replied, "Nice comment, a prospective buyer should be aware of the risks."

Mr. Bobola interjected that "Everyone applying for a tight tank septic system has been turned down."

Mr. Macropoulos said that after the storm no septic system was touched; although the homes were gone, the septic systems remained intact.

coaches. The players competed in a Mayflower League small school-large school contest held at Bristol-Plymouth Regional recently.

Old Colony Coach Nancy Souza praised the athletes. "Cheryl has a strong serve and good hitting ability", she said, "and Michelle is a setter and she was instrumental in our having an effective offense."

Michelle, a resident of East Freetown, Cheryl, a Rochester resident, and Emily Viator of Acushnet who earned Honorable Mention status will be presented certificates by the League.

Ms. Souza indicates that she will graduate only two players, Michelle, and Acushnet resident Liza DiGrazia. "I'm confident that we will have a nice base for next year", she said. "The JVs show a lot of talent and they'll certainly add to next year's team."

SUNDAY SERVICE

Advent is a time of expectant waiting, a time of yearning for a God who will assure us that we are not alone. During this season we will use the word "glory" quite often. The Hebrew word for this is "kavod" which means "heavy, weighty, influential, requiring and receiving respect". This God who is coming is one of power, one who can do more with us to rectify what we have done wrong, one who can help us stop living so marginally. This God is not our buddy, this is one to be respected and listened to if there is to be any meaning at all this season. The sermon title this Sunday at the Mattapoisett Congregational Church will be "He is Heavy". Along with celebrating the sacrament of communion we will take time to remember those in our parish as well as extended family members who have died this past year. Please join us at our worship service which begins at 10:00 a.m.

St. Anthony's Parish

Hospice Programs

TO HELP COPE WITH THE HOLIDAYS

Two public programs to help people cope with the holiday season were announced this week by Mary Luby, BSN, executive director of Lighthouse Hospice. The first, on Monday evening, December 2nd, will be "Handling the Holidays when you are grieving a Loss". Designed for individuals and families who have lost a loved one, the forum will discuss ways of coping with what can be a stressful time. Leading the discussion will be Judy Pontbriand, BSN, Lighthouse clinical coordinator, and Carol Chandonnet, MSW, staff social worker. The meeting will be held at the Middleboro Council on Aging center at 7 p.m. Transportation is available on request.

On Monday, December 9th, a program on "Sharing the Holiday Feast when a Family member is Ill", will be held at St. Gabriel's Church in Marion at 1:30 p.m. Dietitian Nancy Perry will present sample menus and recipe suggestions for family care-givers who may be concerned about the traditional holiday feasts. If desired, a volunteer will stay with the patient that day, and transportation is available.

There is no charge for either session, and pre-registration is not necessary. For directions or to request transportation call

Hingham, Nan Cogswell Keating director, will again be the featured guest ensemble at Holiday Pops!, dancing to excerpts from "The Nutcracker". A total of 93 youngsters from throughout the south shore will perform in this year's presentation, reprising such familiar and popular dances as Arabian, Chinese, Spanish, and Russian, Dance of the Toy Flutes, Mother Ginger and the Pulichinelles, and Waltz of the Flowers. Two exciting "Nutcracker" excerpts new to this year's concert will be The Snow Scene and The Nutcracker Battles Against the Army of the Mouse King. Memorial Hall will become a veritable battlefield as dozens of tiny mice and toy soldiers skirmish.

PPO Music Director Rudolf Schlegal has rounded out the program with many seasonal pops and light classical favorites and a Christmas song sing-along.

Tickets for all three performances are available at The Studio (Duxbury), Notes & Quotes (Kingston), The Snow Goose Shop (Plymouth), Hub Music Shops (Pembroke and West Plymouth) or by calling the symphony office at (508) 746-8008 during business hours.

The 1991-92 subscription concerts of the Plymouth Philharmonic Orchestra are supported, in part, by the Massachusetts Arts Lottery, as administered by the Bridgewater, Duxbury, East Bridgewater, Hanover, Middleboro, Norwell, Plymouth, Plympton, Scituate and Whitman Arts Lottery Councils.

"Beds spinning, billowing clouds of smoke, expert acting, 'Christmas card' sets, exquisite costuming and perfect harmony in song, all combined to make 'A Christmas Carol' a family musical treat exceeding all expectations", wrote the Malone Evening Telegram about the Nebraska Theatre Caravan's production.

The classic, a familiar story for many, tells the tale of an old miser, Ebenezer Scrooge, who hunches over his money bags, hoarding his coins for himself. The dreariness of his life contrasts with the revelry and charity of others on the street who share the joy of the Christmas spirit. But visits from the ghost of his former business partner, Jacob Marley, and three Christmas spirits help turn him into a wildly generous man.

The Nebraska Theatre Caravan, the touring wing of the Omaha Community Playhouse, has an ensemble of 36 actors,singers and musicians who wearing authentic costumes have performed this classic story throughout the United States and Canada.

This adaptation described as "a three-dimensional Christmas card" retains much of Dickens' 19th century dialogue while weaving traditional Christmas carols between the scenes. It was written by Charles Jones, artistic director of the Omaha Community Playhouse who said "The songs are traditional but the scoring is contemporary and exquisitely beautiful."

Tickets for "A Christmas Carol" are $11.00, $15.00 and $19.00; senior/student $2. discount. Group rates are available. Tickets are available at the Zeiterion Box Office at 994-2900, and are also available at all Ticketmaster locations or by calling Ticketmaster at (617) 931-2000.

Annual Holly Days

AT CAPE COD SANCTUARY

Holly Days at Mass. Audubon's Ashumet Holly and Wildlife Sanctuary in East Falmouth will be Friday through Sunday, December 6th, 7th and 8th, from 10 a.m. to 3 p.m. Admission is free. Cut holly and greens will be for sale as well as decorated wreaths and swags, holly trees, centerpieces and a variety of gift items. Refreshments including mulled cider and chowder will be available. The sale will be continued on Saturday and Sunday, December 14th and 15th.

The Sanctuary includes more than 1,000 holly trees and berry color will be at its peak. Visitors can walk the trails and see examples of the many varieties of holly including the Emily holly which produces red berries one-half inch in diameter. Goldie holly trees have beautiful yellow berries and there are also specimens of the orange-fruited Elizabeth holly. The Wheeler Memorial Trail at Ashument contains large American holly trees and the Sanctuary has prepared a new Trail Map to help identify the many unusual trees and shrubs.

Holly Days is sponsored by the Friends of Ashumet, volunteers who work at the Sanctuary year-round, and the Cape Cod area garden clubs who help in the decoration of the hundreds of wreaths and swags prepared for sale. In addition to the many gift items the Ashumet Pairpoint Cup Plates will be available including a new holly plate produced last year.

Originally there were no hollies at Ashumet. Those that exist now were selected from the wild and moved as trees or were

propagated from cuttings collected by Wilfrid Wheeler, a skilled horticulturist and the first Commissioner of Agriculture in Massachusetts. He started the 49-acre collection of trees in 1925. He wanted to protect the best specimen native hollies on Cape Cod and perpetuate them against destruction, not only by people but from fires and increased construction. To these American hollies were added imported varities from Europe, China and Japan, selected for their beauty and hardiness. After Mr. Wheeler's death the property was purchased by Mr. and Mrs. Josiah K. Lilly III and was given to the Massachusetts Audubon Society in 1964.

For centuries holly has been used to celebrate various winter festivities ranging from Christmas to the Roman saturnalia. Ancient Britons considered holly a holy plant (hence the derivation of the name) and hung boughs of it in their homes to provide a winter refuge for woodland spirits. Our tradition of using holly at the Christmas season came from England and was based on the English holly which has a more glossy leaf than the American variety.

All proceeds from Holly Days are used to maintain the grounds. The Ashumet Holly and Wildlife Sanctuary is located off Route 151 and Currier Road in East Falmouth on Cape Cod. For more information please call Ashumet at 563-6390.

The coalition is a non-profit group which is currently involved in providing shelter and a drop-in center for the homeless. In addition, the Coalition has sponsored public forums to address the issue of homelessness in the area.

On Sunday, December 8th, several teams of about 10 swimmers each will attempt to swim ten miles. The Coalition hopes to raise $6,000 or more from pledges solicited by the swimmers from the public.

Among others, the YWCA, UMass Dartmouth students, Boy Scouts, Explorer Scouts, and Middleboro YMCA members will participate. Anyone else wishing to take part in the event should contact Valerie Fontaine at 999-1248.

purchase of a new CO2 Laser, representing the latest in this specialized technology.

For the past several years laser technology has been used at St. Luke's for specialized Ophthalmological (eye) procedures. The new equipment made possible by the Auxiliary opens the field of laser technology to many other uses with clinical and surgical applications. Gynecologists at St. Luke's will be the first physicians using the newest laser technology for a wide range of procedures. There are many other uses for laser light. Most frequently it is used for treating some common conditions, such as changes of the cervix, warts of all kinds, nose and throat polyps, and a wide variety of skin conditions.

A laser is a device which generates a concentrated beam of pure light. This intense, man-made beam of laser light

heats and vaporizes tissue almost instantaneously. It is so precise that the normal surrounding tissues are hardly affected. The clinical advantage of laser light are numerous. Lasers enable surgeons easier access to otherwise confined surgical sites and increase surgical precision. For the patient, post operative pain and swelling are considerably reduced, and there is generally improved healing and reduced scarring with less risk of infection. Lasers also reduce the recuperative time, and patients generally spend fewer days in the hospital than when treated with conventional procedures.

According to Normand Boutin, president of the St. Luke's Auxiliary, "As an organization devoted solely to our hospital, our membership is pleased that we have been able to play a part in making this newest type of laser technology available for the community. Throughout the year, the women and men of the Auxiliary work very hard on many different projects to raise funds to support the needs of our hospital. The dedication of these special 'friends' of St. Luke's is especially rewarded when we know our efforts will aid surgeons to offer the best possible care because they are equipped with the latest instruments."

Little Theatre of Fall River

TO PRESENT "CATHOLIC SCHOOL GIRLS"

The Little Theatre of Fall River will present its only Firebarn production of the season, "Catholic School Girls", at the Firebarn, corner of Prospect Street and Highland Avenue, Fall River on December 6th, 7th, 13th and 14th at 8:00 p.m. and on December 8th and 15th at 2:00 p.m.

Casey Kurtti's enormously funny comedy follows the exploits of four spirited girls in grades one through eight at St. George's School. Each actress also doubles as a teacher/nun. You don't have to be Catholic to enjoy this clever and sensitive play.

The play is under the direction of Stephen Kay, one of the Little Theatre of Fall River's most prolific directors of Firebarn shows.

For ticket information call Little Theatre's box office at 675-1852.

Commercial Drivers License

If you drive a truck or bus Massasoit Community College should be your first route stop if you expect to be driving a commercial vehicle after April 1, 1992.

The Federal Highway Administration's Office of Motor Carriers (OMC) perhaps tells it the best way: No Commercial Driver's License (CDL) after April 1, 1992 and you will be on the highways illegally.

"What the OMC is saying is: No License, No Job. All current commercial licenses will be no good beyond April 1, 1992", said Division of Continuing Education Associate Dean Ralph Sarro.

The Division of Continuing Education is therefore the place to be for all commercial license holders as two programs will be offered.

"We encourage drivers to apply now and avoid logjams at testing sites. There will be no extension beyond the 1992 statutory

Food Collection

"ANSWER THE NEED"

To celebrate America's tradition of Thanksgiving, Plymouth Savings Bank began the "Answer the Need" program seven years ago. The program extends from November 1st through January 1st and customers and friends are being asked to share non-perishable food items with less fortunate members of the community.

Food collection barrels are in the lobbies of each of the 14 Plymouth Savings Bank offices. Because of the heavy demand for food which goes beyond the holiday season, the hope is that food supplies will be sufficient for distribution through the winter.

Plymouth Savings Bank is asking local residents to donate non-perishable food items such as canned meats, peanut butter, jars of spaghetti sauce, canned fruits and vegetables, oatmeal, macaroni and cheese, rice, coffee and dry milk.

Season of Ornaments

CHRISTMAS 1991
AT ROTCH-JONES-DUFF HOUSE

Celebrate Christmas, the Season of Ornament with Family Traditions at the Rotch-Jones-Duff House and Garden Museum.

The Rotch-Jones-Duff House and Garden Museum in New Bedford, was built in 1834. The Greek Revival House was designed by Richard Upjohn and it is the only surviving Whaling Era mansion on the east coast with its original garden and grounds intact.

For its seventh season the Museum will present a celebration of ornament based on the Christmas traditions of the three families who occupied the house, the Rotches, the Jones and the Duffs. The Museum will be decorated with traditional holiday finery and special events will include an opening Preview Party (admission $15.00) from 6:00 to 8:00 p.m. on Friday, the 13th of December.

The Museum will be open on Saturday, December 14th, from 10:00 a.m. to 7:00 p.m. (admission is $5.00 for adults, $2.00 for children). A Greens Market will be held at 10:00 a.m. on the terrace. A Victorian Ornament Making Workshop, presented in conjunction with the Children's Museum of Dartmouth, will be held in the Carriage House followed by a trip to "The Nutcracker" at the Zeiterion Theatre in New Bedford (reservations and more information, please call the Children's Museum at 993-3361). Musical entertainment will be provided from 4:00 to 6:00 p.m. by the piano duet, Kath-

on Thursday, December 12th, at 10:00 a.m. The concert by the Apple Hill Chamber Players is open to the public, but at this time "Amahl and the Night Visitors" is sold out. General admission tickets are $3.50 each. For reservations call the Zeiterion Box Office at 994-2900. All of the School Time Performances open with a live organ recital on the theatre's restored Grimshaw-Gudewicz Wurlitzer Theatre Organ performed by members of the Southeastern New England Theatre Organ Society, the caretakers of the organ.

The Apple Hill Chamber Players have been called "positively irresistible" by the New York Times and described as "vital and persuasive music making" by Musical America. One of America's foremost chamber ensembles, the Apple Hill Chamber Players have received nationwide distinction over the last 18 years for their eloquent presentations of the chamber literature for piano and strings. Established in 1971, the six players are permanent and founding artists-in-residence at the Apple Hill Center for chamber music in East Sullivan, NH. In their touring programs the Players perform a diverse repertory, from the classic 18th to 20th century masterpieces to new works by leading young American composers.

Their program at the Zeiterion is for students of instrumental music as well as the general public.

Opera Express, the touring company of Connecticut Opera, will present the classic holiday opera "Amahl and the Night Visitors". As the community outreach and educational branch of Connecticut Opera, Opera Express has introduced the magic of live opera to more than 1,000,000 children and adults throughout the decade-plus history. Gian Carlo Menotti's opera, "Amahl and the Night Visitors", was the first opera written expressly for television, and it premiered on Christmas Eve 1951 on NBC-TV. The opera tells the story of a crippled shepherd boy named Amahl who meets the Three Wise Men, and his special gift for the newborn King. The opera is recommended for younger students - kindergarten through sixth graders.

These two special productions are presented in cooperation with the Greater New Bedford Concert Series Board, and are funded in part by a grant from the New England Foundation for the Arts, with additional support from New England Telephone, the Massachusetts Cultural Council, a state agency, with funds from the Council administered by the Arts Lottery Councils of Acushnet, Freetown, New Bedford and Wareham.

In keeping with the holiday spirit of giving, this year the Zeiterion asks the patrons to bring canned goods from December 2-14 which will be donated to the
